For students living in private accommodation

This guide tells you what you must do, and how to access College support, during your isolation. The college can support you in several ways while you are in isolation which is outlined in the following guidance.

You must remain in your room and household for the whole period of your isolation. You must not leave except in an emergency evacuation.

Please call Reception with any updates: 01223 336250

If you go into isolation

Due to symptoms, a positive test, or close contact with someone who has tested positive

If you receive a test result (positive or negative)

If you develop symptoms

Even if you are already isolating, please call Reception if you develop symptoms

If your isolation ends early

If your household ends isolation early because ALL symptomatic housemates have tested negative

If there is a fire alarm or other emergency evacuation

Evacuate when you hear the alarm.

Wear a face mask.

Wear gloves if available.

Minimise touching surfaces outside your room.

Remain 2 metres away from all other people as far as possible.

Do not mingle with other households.

When does my isolation end?

You will be informed of the end date of your isolation by either the NHS track and trace service, the University or Reception.
